

# *My Magnificent Tree*

*Trees are vital for healthy natural environments and ecosystems. Look around you and find one of these amazing natural features. Draw it in the space below. Label the trunk, bark, leaves, branches and roots. Can you see any flowers or seed pods? Draw them in too.*

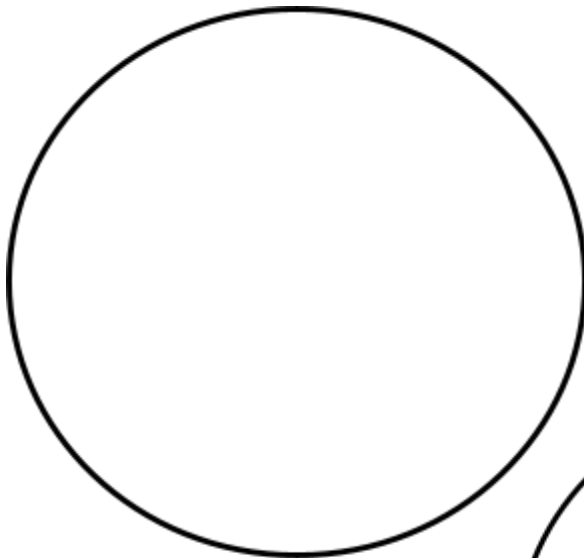

*Now use your scientific observation skills and take a closer look at the tree. Touch the bark. What words would you use to describe it?*

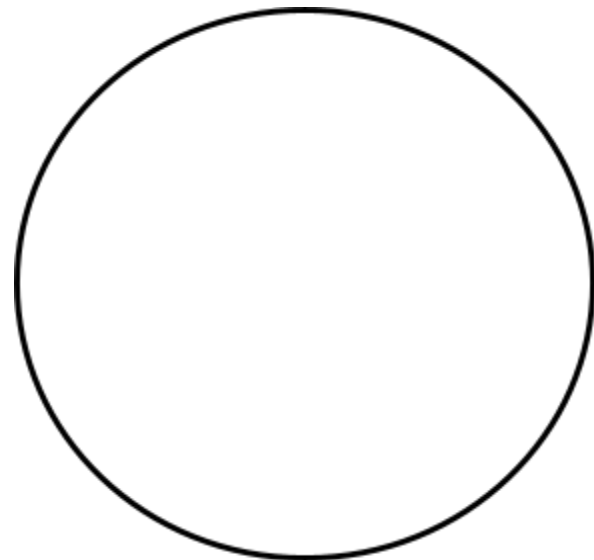

List 5 words to describe your tree.

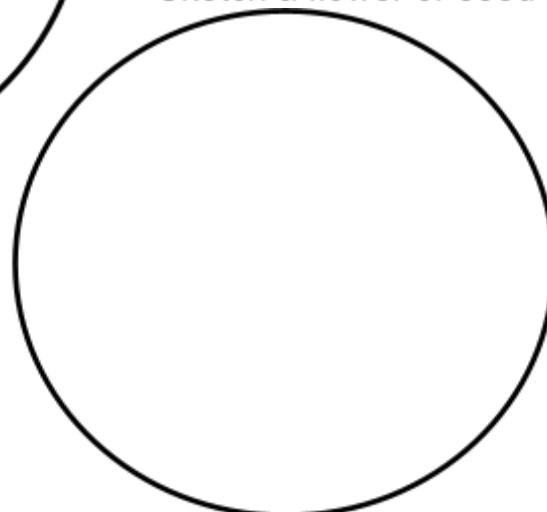

A tree is the habitat for many creatures including birds, insects and reptiles. Sit quietly and watch closely. Make a list of who lives here.

Bark rubbing

Sketch a flower or seed pod

Pick a leaf and sketch it. Remember to include details.
